SUMMARY

Senior Front End Web Developer with over three years professional experience in the Media and Entertainment industry with building and maintaining large scale applications using Javascript, CSS, HTML, AngularJS and Typescript.

EXPERIENCE

SENIOR FRONT END DEVELOPER LEAD

CAPGEMINI   **November 2021 – Present**

· Managed the full project lifecycle for four web applications from ideation to deployment and led an offshore development team while collaborating with cross-functional teams to translate feature requirements into technical documentation.

· Spearheaded the revitalization of an internal web application for crew members using Angular and expertly integrated backend API services to enhance performance and functionality.

· Provided extensive mentorship to offshore developers, promoting best practices and clean code, and ensured on-time delivery of high-quality code within agile sprint cycles.

· Vigilantly addressed production issues and led the bug triage process, ensuring application stability and reliability.

· Contributed to comprehensive technical documentation and actively participated in design review meetings, emphasizing a commitment to maintaining a robust software ecosystem.

Privacy Legal Business Analyst

CAPGEMINI   **July 2020 – September 2021**

· Cookie Consent Implementation: Collaborated with technical team and brands to ensure cookie consent requirement, ensuring compliance with the Age-Appropriate Design Code and driving productive discussions for implementation.

· Documentation and Presentations: Created comprehensive documentation, presentations, and guidance materials with Microsoft Tools, facilitating clear communication and understanding across teams.

· Privacy Law Compliance: Proactively engaged with legal and business stakeholders, ensuring adherence to privacy laws such as GDPR, CCPA, LGPD, and AADC through implementation tracking and compliance verification.

Front-End Web Developer

CAPGEMINI   **February 2020 – June 2020**

· Global Team Coordination: Partnered with an international team to successfully develop an internal movie database rental system, showcasing strong cross-cultural communication and collaboration skills.

· Secure Data Collection: Engineered a robust Angular form designed to capture sensitive information, ensuring a seamless user experience with elegant validation and error handling mechanisms in place.

· Enhanced User Interface Components: Designed and implemented user-friendly datepicker and typeahead features utilizing the Bootstrap Library, significantly improving the application's usability and overall user experience.

WEB DEVELOPER

SELF-EMPLOYED   **June 2019 – January 2020**

· Engineered and executed both static and full stack applications utilizing a robust tech stack including NodeJS, JavaScript, React, and MongoDB.

· Developed a comprehensive full stack web application for a transportation company, streamlining the route creation process for client pickups using the web application framework ReactJS. Utilized redux, formik and MaterialUI.

· Designed data models utilizing Mongoose and developed associated services with Node.js, facilitating seamless synchronization with a cloud-hosted MongoDB database. Leveraged Axios for efficient data interaction.

EDUCATION

B.S POLITICAL SCIENCE

CAL STATE LONG BEACH · Long Beach, CA · 2016

CERTIFICATIONS

Full Stack Web Development

UCSD Extension Coding Bootcamp · 2019
Program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

SKILLS

LANGUAGE: JavaScript, Typescript, HTML, CSS,
Frameworks: NodeJS, React, Angular, MaterialUI, Bulma.io, Bootstrap
Databases: MongoDB, MySQL, DynamoDB
Other: HTTP, JSON, jQuery, Git, Jenkins, AWS
